How to prepare

1

Wash your hands before preparing baby's formula.

-  Wash cup thoroughly until no milk remains.
-  Boil for 5 minutes, leave covered until use.
-  Boil drinking water for 5 minutes; allow to cool until luke warm.
-  Consult feeding table, pour exact amount of lukewarm water into the cup.
-  Use only the scoop from this container. Powder must be leveled.
-  Consult feeding table, add exact number of level scoops into cup.
-  Stir until powder completely dissolves. To be consumed within 1 hour.
-  Close tin tightly after each use & store it in a cool & dry place. Must be used within 3 weeks after opening.

Serving methods:

     **Warning:** Unboiled water, unboiled cups or incorrect dilution can make your child ill. Incorrect storage, handling, preparation and feeding can potentially lead to adverse effects for the health of your child.

Important Notice:

We believe that breastfeeding is the ideal nutritional start for babies, and we fully support the World Health Organizations recommendation of exclusive breastfeeding for the first six months of life followed by the introduction of adequate nutritious complementary food along with continued breastfeeding up to years of age.

(S-26 GOLD 3, S-26 GOLD 4, S-26 Ultima 3, S-26 GOAT Milk 3, Illuma 3) is not a breast-milk

substitute. We recommend that you speak to your healthcare professional about how to feed your baby and seek advice on when to introduce this product.
