

# # babyname month 6

MONTH **06**

“I’m almost on the move”

Now I roll over in **BOTH** directions (front to back, back to front)

Watch **ME SIT** without support

If I am standing, I support weight on my legs and might bounce

I’m starting to rock back and forth, and start crawling backward before moving forward

My favorite thing is to play with others, especially my parents

I know your faces and know when someone is a stranger

Happy is the best way to be and I can respond to your emotions

Wow - I can look at myself in a mirror
